English in modern life

I'd like to discuss the role of English in modern life. As far as I know 1 billion people speak English nowadays. It has become one of the world's most important languages in politics, science, trade and culture.

You know that English is the official language of the United Kingdom of Great Britain and Northern Ireland, the United States of America, Australia and New Zealand. It is used as one of the official languages in Canada, South Africa and the Irish Republic.

In the world many people use English as an international language for business and education.

As for me I have been learning English for 9 years. At our English lessons we usually read books, learn words, write exercises and listen to recordings. My weak points are vocabulary and grammar. However, I like reading and speaking. I think it important to know English because we need it for good job or travelling abroad.

Date: 6 May 21:35:08

Hi there Katya,

How's everything? I've just come home from sister's birthday. She had a party in the house in the country. It was really cool! There were about sixty people. You won't believe it, but I was dancing with Mark. He wants to meet up on Saturday:)

I feel very wiped out, so I will go to bed.

P.S. What about going to the cinema on Sunday? I want to watch "The Iron Man 3".

Write soon:)

All the best,

MY DREAM HOUSE

The topic of my talk is my dream house. I'd like to have my own house on the seaside. It must be a forest near my house because I want to go for a walks with my husband and two children: elder boy and a little girl.

One of main things in the house for me is large windows. Every morning I want to wake up and see wonderful landscape.

It will be great if we have two cars and a garage for them (one car for me and one for my husband).

I also want to have a fire-place. I think it makes a house more cozy.

My house will have a lot of space. I want to have a big lawn. My children will play on it.
